Las Grutas de Tolantongo or Los Prismas Basálticos?

A lot of you have asked me which place is better Las Grutas de Tolantongo or Los Prismas Basálticos. I've already visited both places and I think that the two of them are wonderful; each one has its special and magical atmosphere.

Las Grutas de Tolantongo is 117 km away from Pachuca and Los Prismas is 30 km away from it so, talking about distance, Las Grutas is farther from Pachuca than Los Prismas. I've heard that the way to Las Grutas is more picturesque than to Los Prismas; I can't truly confirm this because every time I have gone to Las Grutas I slept while someone else was driving.

The weather in Los Prismas is cooler than in Las Grutas, despite this, the day that I went to Los Prismas, I felt the nature more intensely than in Las Grutas. It was probably because there weren't a lot of people. The attractions in both places are fantastic. In Los Prismas you could see an amazing waterfall and you can walk through the place. On the other hand, Las Grutas have also hot spring waters and caves. You could have an incredible time.

In my opinion, Las Grutas is more fun than Los Prismas. But what I recommend is that you visit both places and make your own conclusion. Just take into account that you should be more careful in Las Grutas because it is a huger place with a lot of people, and drive more slowly because the road could be dangerous.

3. ACCORDING TO THE POST, ANSWER THE FOLLOWING QUESTIONS.

1. What is the author doing with both places?

2. Why does the author say that Las Grutas de Tolantongo is farther than Los Prismas Basálticos?

3. What's the weather like in Los Prismas Basálticos compared with the weather of Las Grutas de Tolantongo?

4. What are the recommendations of the author at the end of the post?

5. Which types of words are used to compare both places??

Hi Gary,

I hope you are ok. Guess what? I've just had the most fantastic vacation ever; I went camping to El Chico in Hidalgo. Maybe you have never heard of it, but it is a picturesque town in Mexico; it is actually said that many years ago English miners settled down here to work in the mines; on the other hand, its architecture is as interesting as the rest of the places in "La Comarca Minera Hidalguense".

Let me tell you that my last vacations weren't as colorful as these ones; actually, my family and I visited the Sahara Desert last year, and it isn't as green as El Chico. To tell you the truth, some parts of the Sahara Desert are as dry as Arizona and Chihuahua. I think Parque Nacional El Chico is as vast as the forests in Pennsylvania.

Any way Gary! I am also emailing you to ask for help because I have no idea how to write my essay, it isn't as easy as it looks like. Mrs. Peterson is as demanding as my mother. Can you believe it?

I am extremely worried, it is due this coming Friday, and I've just unpacked my luggage; it isn't as fair as it should be. Please help me, I have to write one or two pages about my trip to El Chico, I know you are as smart as Einstein was.

Please, please!

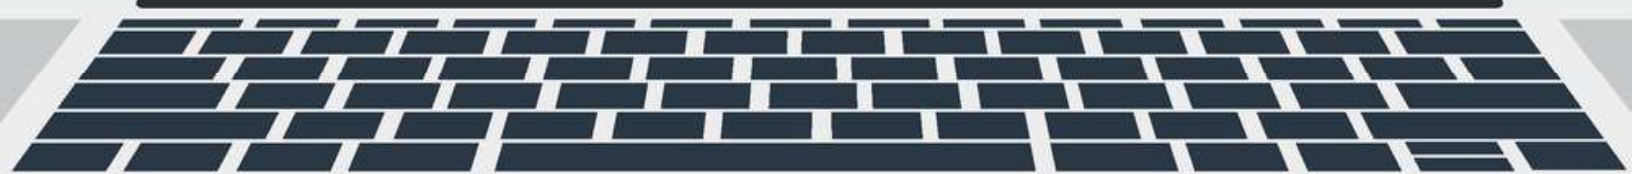

Cheers,

Johnny

Hi Johnny,

It is nice to hear from you. I hope you are as ready as I am.

I wish! I am not as smart as Einstein was. It is something easy to do, you can get some information on the web, but two pages is not totally an essay; Let's say it is a micro essay.

Well, you just need to include three main elements:

-Introduction, which must catch the reader's attention or at least make the essay sound interesting, moving from general to specific ideas.

-Body, it includes supporting paragraphs that are in chronological order, substantial examples and evidence to back up all of the information you include.

-Conclusions, to wrap all your arguments and points of view.

Relax! It isn't as difficult as you thought.

Sincerely,

Gary.

3. READ THE TEXT AND DECIDE IF THE STATEMENTS ARE TRUE OR FALSE.

Located in Metztlán next to the lagoon at the bottom of the ravine, the Moon Inn is the most beautiful hotel you can find in the area, rated with more stars than all the other lodging options.

One of the things that makes the Moon Inn better than the others is that it has access to its own reservoir where you can safely practice birdwatching and fishing, the water in the reservoir is cleaner than the running water from the faucet at home, you can even drink it! At night you can have dinner at the open-air restaurant that has the most extraordinary view of the lagoon where, during full moon nights, you can see moonlight beams beautifully bouncing from the water and producing the most dazzling light show, in fact, during these days of the year, the place tends to be fully booked because couples decide to get married at night under the moonlight, for this purpose, the Moon Inn offers the most sophisticated catering service and they also hire the best decorators in the state, they elegantly adorn the open air restaurant with some of the most delightful flowers in the region.

It is during October when most weddings take place, this is because people say that October moons are prettier than any other times of the year.

Additionally the rooms are more comfortable than those of other hotels in Metztitlan, visitors have reported that the bathrooms are cleaner and that the beds are newer, therefore your experience at the Moon Inn will be the best, we highly recommend you visit them, you don't even need to stay, you can just visit them and practice horseback riding or birdwatching, if you don't know what to do next weekend, this might be one of the best options out there.
